

The Paige Wall Buster®

Through Wall Protector for CL2, Driven Low Voltage Cables

Connecting you to more.

PART# 98P0014 (14")
98P0030 (30")

1.0 APPLICATION

1.1 This specification covers the through wall protection device "WALL BUSTER®" for use with CL2 Driven Low Voltage Cables. Construction consists of one injection molded locking bushing and one through wall extruded locking tube.

1.2 UV RESISTANT

1.2.1 (UL 746)

1.3 FIRE & FLAME RETARDANCY

1.3.1 Complies (UL Listed) with the requirements for Plenum applications

1.4 SUNLIGHT RESISTANT

1.4.1 Complies with f1 (UL 746C)

1.5 EXTERIOR EXPOSURE

1.5.1 UL Wet Listed.

2.0 CONSTRUCTION

2.1 LOCKING BUSHING:

PART #980001

Injection molded white flame retardant polymer

2.1.1 1 inch hex base

2.1.2 .030 x .030 x 45 degree weather seal ramp

2.1.3 Standard -14 NPS threads (1/2 inch electrical fitting threads)

2.1.4 Double snap fit locks (locks both in and out when engaged.)

2.2 TUBE: THROUGH WALL PROTECTOR FOR CL2 DRIVEN, LOW VOLTAGE CABLES

2.2.1 Extruded tan Plenum rated polymer

2.2.2 Inside diameter 0.390"

2.2.3 O.D, 0.550"

2.2.4 Length 14" and 30"

2.2.5 One end beveled and channeled to lock in Bushing

2.3 SURFACE PRINT

PAIGE WALL BUSTER®, P/N 98P0014 or P/N 98P0030, (UL) E339010, PLENUM RATED, SUNLIGHT RESISTANT, WET LISTED, PAT. No. 9,470,342

The Paige Wall Buster®

The revolutionary two-part through wall wiring protection device for use in Plenum applications

Powering connections

For 60+ years

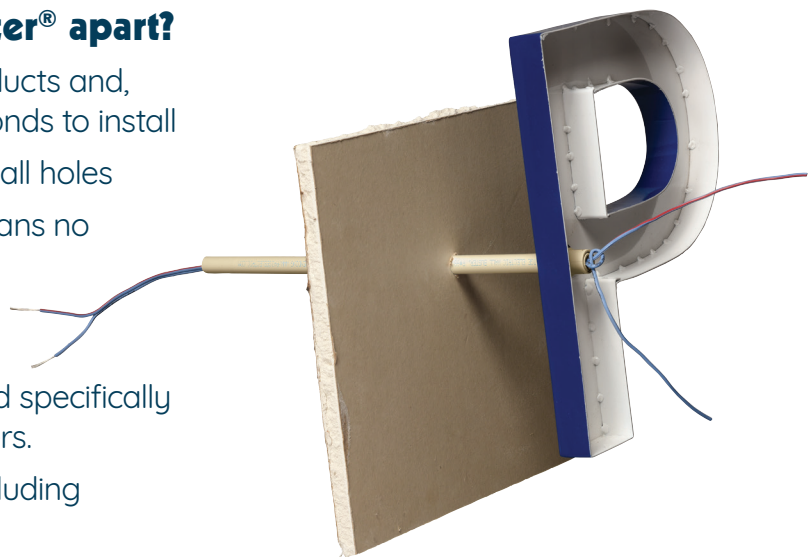

By combining innovative wire and cable solutions with a service-focused approach, Paige has become the go-to provider for application-driven products. With an operating presence in more than 100 countries and seven North American locations, we have the reach to handle the most complex jobs and the expertise to customize any order to your exact needs.

Our SignWire expertise makes for the best customer experience

- Real-time order tracking and redundant facilities across the nation make for on-time delivery
- Agile operations mean we can respond and act quickly
- Our UL-listed products are specifically rated for plenum and direct barrier, plus they meet UL and NEC Code.

What sets the Paige Wall Buster® apart?

- Less expensive than other products and, thanks to a snap fit, takes seconds to install
- Eliminates the need for large wall holes
- Lack of sharp metal edges means no wire failures
- Say goodbye to code enforcement problems. The Wall Buster is UL listed and specifically designed for LED channel letters.
- Can be used in all locations including Plenum space
